Mid-Atlantic TAB Lead

MID-ATLANTIC TAB TEAM

Mid-Atlantic Technical Assistance to Brownfields (TAB) is a collaboration among leading programs across EPA Region 3:

- Delaware
- Maryland
- Pennsylvania
- Virginia
- West Virginia
- Washington, DC

Mid-Atlantic TAB Overview

The Technical Assistance to Brownfields (TAB) Program provides technical assistance to communities and stakeholders to help address their brownfield sites and to increase their understanding and involvement in brownfields cleanup, revitalization, and reuse.

The TAB Program is funded by EPA and available to all stakeholders at no cost.

Independent resource providing support and guidance to help communities understand:

- Acquiring, assessing, cleaning up and redeveloping brownfield properties;
- The health impacts of brownfield sites;
- How science and technology are used for site assessment, remediation, redevelopment and reuse; and
- How to comply with voluntary cleanup requirements.

SERVICES WE PROVIDE

- Education and outreach
 - *Like today's webinar!*
- EPA Grantee support
- EPA application support
- Technical assistance
 - Site specific
 - Area-wide

The National Register Program

- Federal list of historically-significant resources worthy of preservation
- Established in 1966 via National Historic Preservation Act
- Administered by the National Park Service
- Overseen by a State Historic Preservation Office (SHPO) in each state
- Almost 100,000 listings encompassing nearly two million resources

NPS Form 10-900 OMB Control No. 1024-0018
expiration date 03/31/2022

United States Department of the Interior
National Park Service
National Register of Historic Places Registration Form

This form is for use in nominating or requesting determinations for individual properties and districts. See instructions in National Register Bulletin, *How to Complete the National Register of Historic Places Registration Form*. If any item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, architectural classification, materials, and areas of significance, enter only categories and subcategories from the instructions.

1. Name of Property
Historic name: Marshall University Memorial Fountain
Other names/site number: Bertoia Marshall University Memorial Sculpture
Name of related multiple property listing:
(Enter "N/A" if property is not part of a multiple property listing)

2. Location
Street & number: 1 John Marshall Drive
City or town: Huntington State: WV County: Cabell
Not For Publication: ☐ Vicinity: ☐

3. State/Federal Agency Certification
As the designated authority under the National Historic Preservation Act, as amended,
I hereby certify that this X nomination request for determination of eligibility meets
the documentation standards for registering properties in the National Register of Historic
Places and meets the procedural and professional requirements set forth in 36 CFR Part 60.
In my opinion, the property X meets does not meet the National Register Criteria. I
recommend that this property be considered significant at the following
level(s) of significance:
 national statewide X local
Applicable National Register Criteria:
 A B X C D

Susan Infirce Deputy State Historic Preservation Officer 6-17-24
Signature of certifying official/Title: Date
West Virginia State Historic Preservation Office, Department of Arts, Culture and History
State or Federal agency/bureau or Tribal Government
In my opinion, the property meets does not meet the National Register criteria.
Signature of commenting official: Date
Title : State or Federal agency/bureau
or Tribal Government

Sections 1-6 page 1

What National Register Listing Does

- Provides recognition and prestige for the property
- Provides limited protection from state/federally funded actions
- Eligible to apply for grants
- Eligible for historic rehabilitation tax credits

What National Register Listing Does Not Do

- Does not restrict use or sale of the property
- Does not require continued maintenance of the property
- Does not require the property to be open to the public
- Does not guarantee funds for restoration or perpetual maintenance
- Does not protect property from demolition
- Does not provide a historical marker for the property
- These lack of restrictions are only on the state/federal level; municipalities may establish their own regulations on the treatment of historic properties, but this is entirely optional

Qualifications

- >50 years old in most circumstances
- Must retain historic integrity
- Consent of at least 50% of property owners
- Meet one of the NR Criteria of Eligibility:
 - **A** - site of a historical event or historical pattern/trend
 - **B** - associated with historically significant person
 - **C** - historical architecture, art, engineering, design, etc.
 - **D** - archaeological potential

What is a Historic District?

- “A district possesses a significant concentration, linkage, or continuity of sites, buildings, structures, or objects united historically or aesthetically by plan or physical development.”
- In most cases, a district must be contiguous; not divided into separate, non-connecting parcels
- Resources within a district must collectively meet at least one of the Criteria for eligibility
- Resources within the district boundaries that meet NR qualifications are called “Contributing”; those that don’t meet the qualifications are “Non-Contributing”

Criterion A

- Site of a historic event, pattern or trend
- Most district nominations use Criterion A

Criterion B

- A place closely associated with a historically significant person or people during the productive part of their life/lives
- Usually the home or workplace of an individual
- Only rarely is it used for historic districts

Criterion C

- Excellent, well-preserved examples of an historic architectural style, engineering technique, landscape design, work of a master, etc.
- Encompasses homes and buildings; public art and monuments; parks and cemeteries; bridges, tunnels, and dams

Criterion D

- For resources that have the potential to yield new information on a historical subject
- Primarily for archaeological sites; don't need to be fully excavated
- Encompasses former industrial sites; Native American sites; burial grounds; military entrenchment or fort sites

National Register Listing Process

1. A historic preservation consultant surveys the proposed historic district - suggests the boundaries and what resources should be Contributing/Non-Contributing
2. SHPO reviews survey results, provides comments if requested
3. Nominator works on completing the nomination form; SHPO reviews, revises, comments on, and approves form
4. Nomination presented to the State Review Board (SRB) for approval
5. SHPO sends nomination to the National Park Service for final review and approval; if approved, SHPO notifies local officials and property owners

Why Resurvey Existing Historic Districts and Revise Nominations?

- Evolving technical standards for National Register nominations
- Legal implications of NR documents
- Updates to Significance Evaluations, Period of Significance, and Resource Count
- Clarification of Contributing/ Non-contributing status
- Correction of errors and omissions

Grant Funding Eligibility

- Is the building listed or eligible for the National Register?
- Has it been altered? What is its current condition?
- What characteristic features need to be preserved?

Economic Benefits

Get Money Back on
your State and
Federal Taxes for
Rehabilitating Historic
Buildings!**

*Building must be listed in the National Register individually or as a contributing resource in a historic district

**Work must conform to the historic preservation standards for historic buildings

Environmental Review and Compliance

- Clarity of National Register status, location and boundaries
- Save time in the project process by already having the project area surveyed
- Have some ideas for mitigation measures ready to go - documentation, content for interpretive signs, potential National Register nominations, educational materials, etc.

Local Design Review and Planning

- Is a building subject to review?
- What are the “characteristic features” of a particular building?
- Which buildings in our town qualify for grants and tax credits?
- Historic districts can be a selling point for businesses, residents, investors, and tourists

A Word about Historic Preservation Funding

- **Historic Preservation Fund (HPF)** - Federal dollars that are shared among 59 SHPOs and 222 THPOs (\$150-\$225 million annually)
- **HPF dollars help fund SHPO staff** to provide Section 106 project reviews
- **HPF dollars provide preservation grants** to local governments, organizations, and citizens
- The HPF is **NOT FUNDED BY TAXES**; it is funded by the proceeds of offshore oil and gas drilling leases.
- The Department of the Interior has not released FY2025 *appropriated funds*. Proposed 2026 budgets eliminate all HPF funding.

If you believe that **supporting state and local preservation projects**, and **ensuring that SHPO staff can provide timely environmental reviews** is worthy of federal funding, please contact your elected representatives and ask them to fund the HPF.

Evolving Standards - Survey

29. Description of Environment and Outbuildings
No attempt to landscape broad lawn - no shrubbery. Parking lot in rear; Vacant lot + driveway east side. Occupants appear to take no interest in maintaining the imposing old house as an integral part of a good residential street.

Unattractive window arrangement. Quoins at all corners from top to waterline. Landscaping sadly neglected.
The one attractive feature of entire clumsy building is the green stained leaded glass double window above west porch. The semi-circular glass window head is surmounted by stone arch with keystone.

29. Description of Environment and Outbuildings
solid drive on east - gable mgarage connecting (1517 Duarrier)
A hideous box stands immediately to the east, designed in a bastard swimming pool style.
Sources of Information

caping sadly neglected.
This is one attractive feature of entire clumsy building

----------------	--------------	-------------------

STATEMENT OF SIGNIFICANCE

Buildings contribute to the character and integrity of the East End.

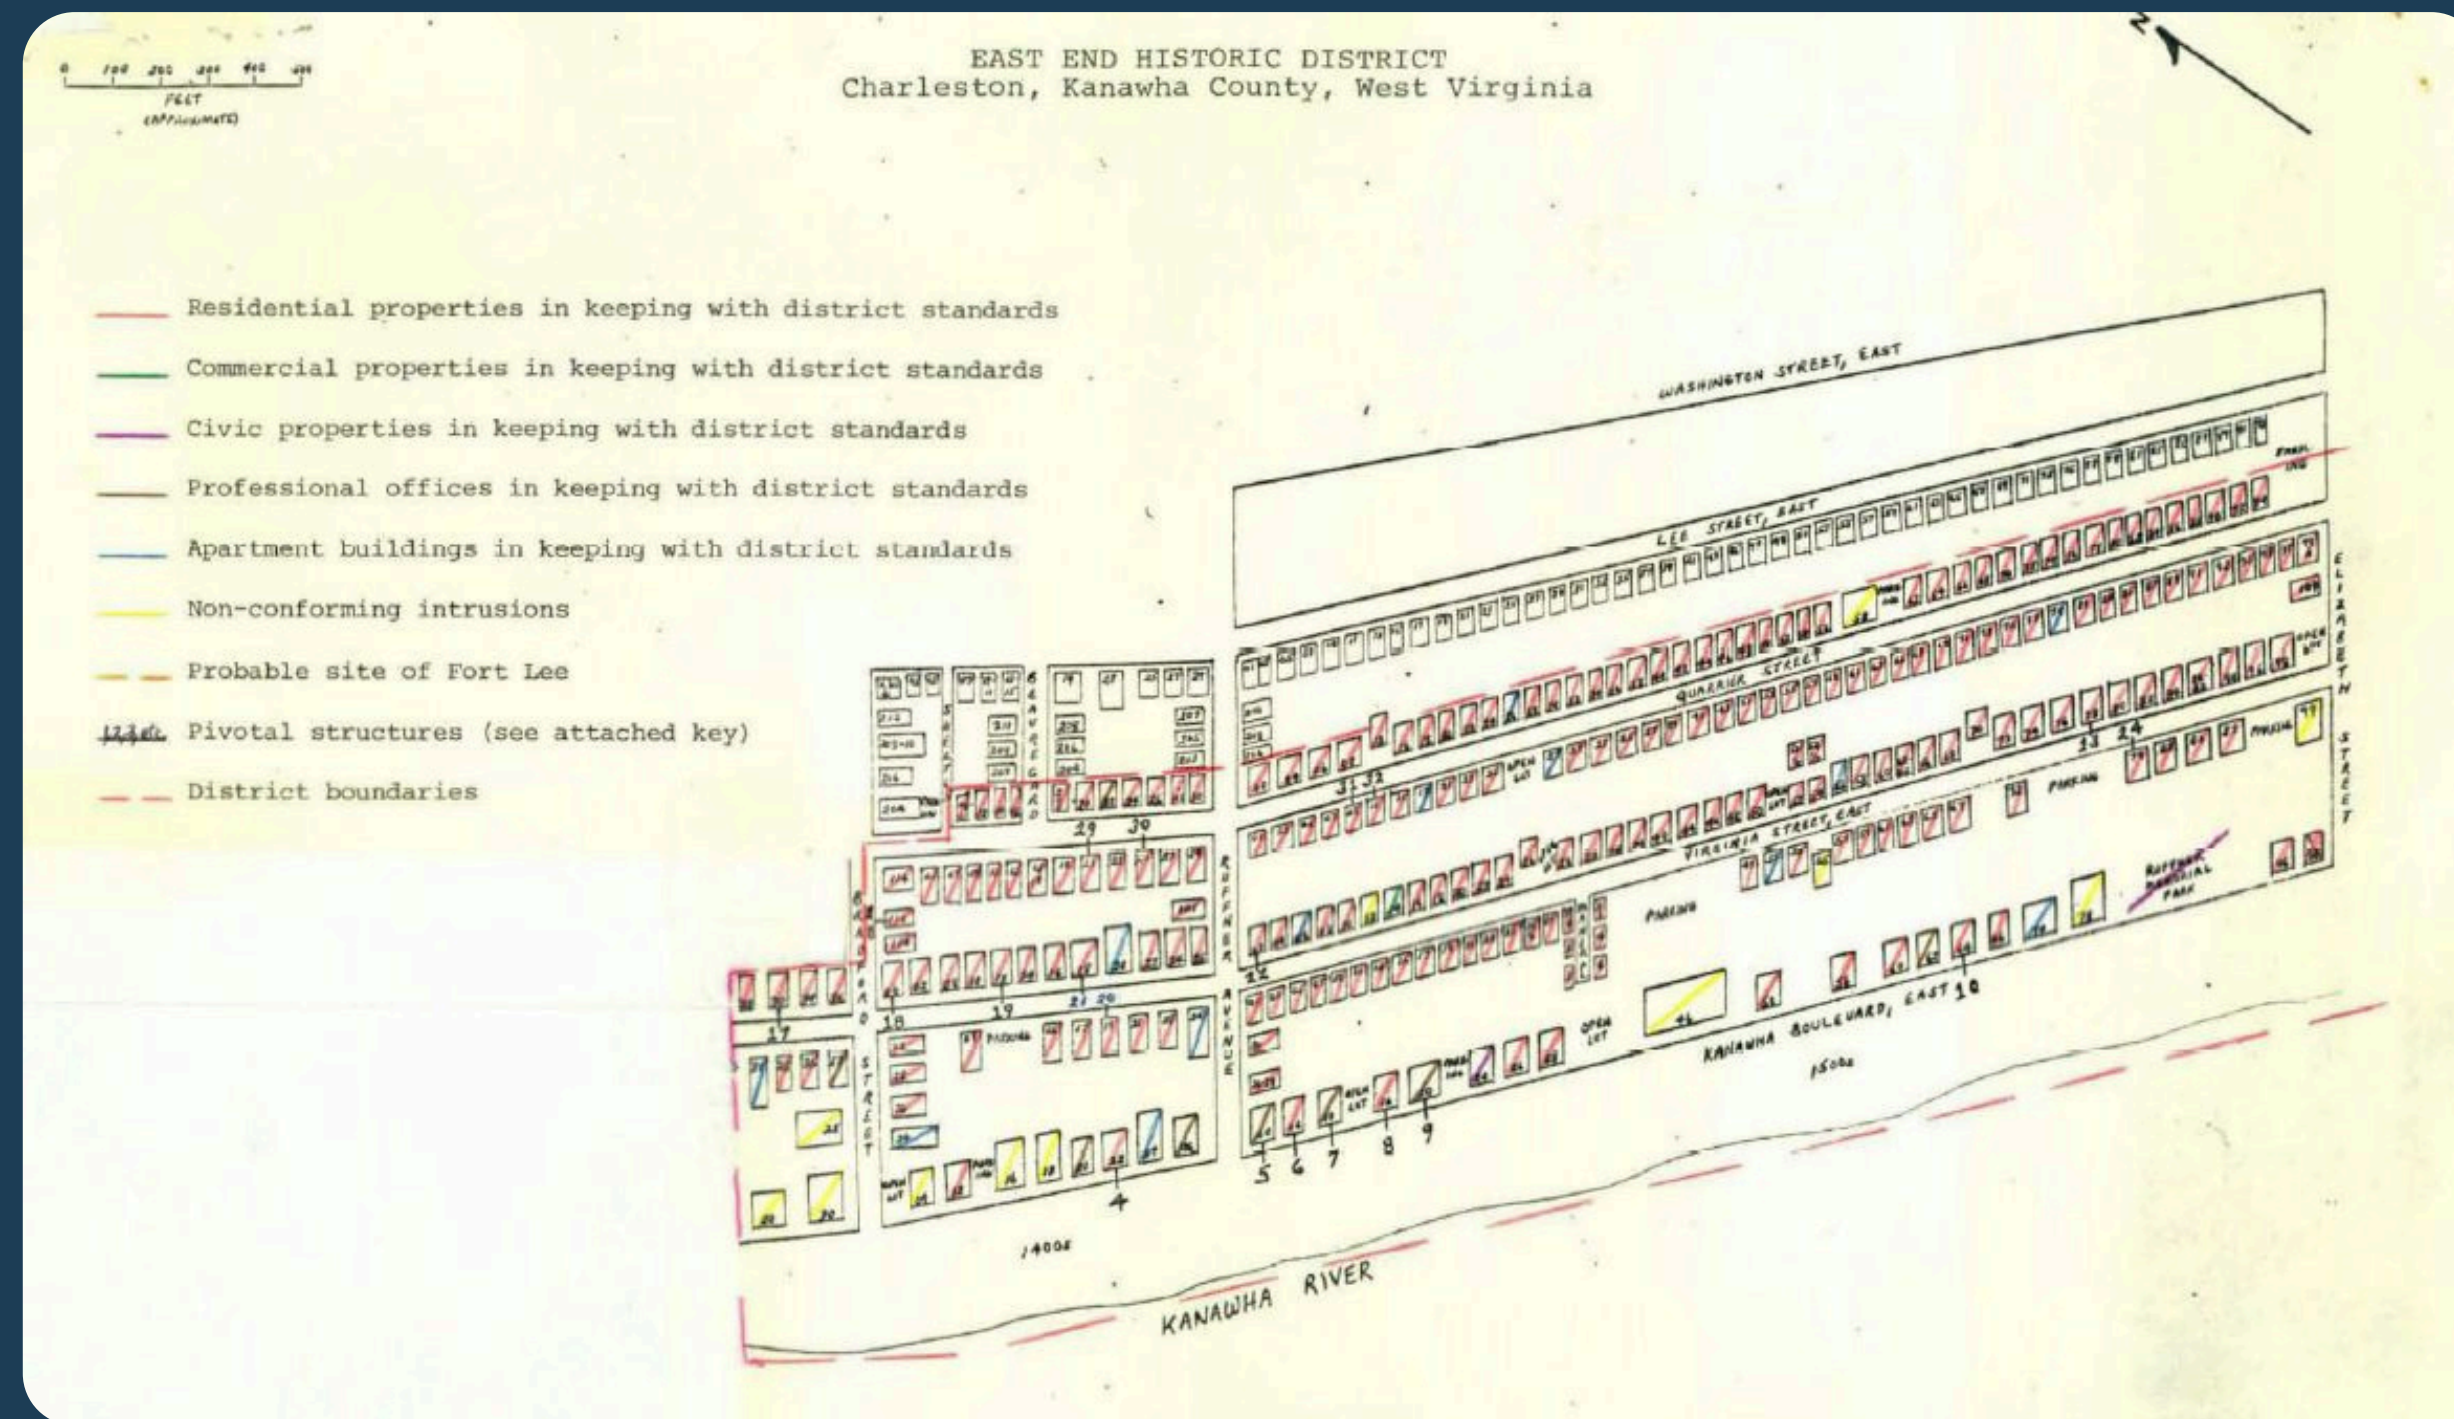

* 1. Frank Woodman House, 1210 Kanawha Boulevard, East. Built c. 1898 for Frank Woodman, wealthy businessman and civic leader, the house is representative of late nineteenth century Queen Anne style. High, corbel-capped brick chimneys emphasize the vertical heave of the multiple-gable hip roof. Multi-textures personified in half-round, imbricated wooden shingles, rock-face stone, glass-and-marble plaster, and wrought iron decorate projecting brick bays topped by shed and half-conical roofs. A semicircular brick driveway paved in a herringbone pattern passes through the original, ornate, wrought-iron gate.

Of the 100 buildings comprising the Beverly Historic District 25 are classified as possessing "pivotal" or highly significant architectural and/or historical character. Twenty (20) additional buildings have been designated "secondary" in importance, though their architectural and/or historical qualities are meritorious enough to form a supporting context for the pivotal buildings. Removal of such buildings would leave a pronounced gap in the physical interrelationships of the townscape. Thirty-seven (37) buildings, categorized under a "neutral" heading, share non-intrusive qualities that lend over-all support to the historic district through their scale, textures, and siting, but do not possess individual strength of a degree warranting inclusion in the two previously defined categories. Nineteen (19) buildings have been called "intrusions" because their design, wall treatment, or visibly radical alterations compromise the architectural character of the district community. Approximately 20% of the district's built environment comprise intrusions, most of these being mobile homes.

Because of the efforts of many people who have given much for love of town and county, Beverly and all of Randolph County are doing well for today and doing much toward the preservation of their past. They give attention to the buildings, structures and objects which have historical significance and encourage all their people to practice restoration and preservation. In the Beverly area, this effort has been productive and is plainly to be seen on all sides. The town's Community Week, held each year in July, is a celebration of the history of the more than two hundred years that make Beverly and its Historic District a special place. The people of this trans-Allegheny community look forward to the future.

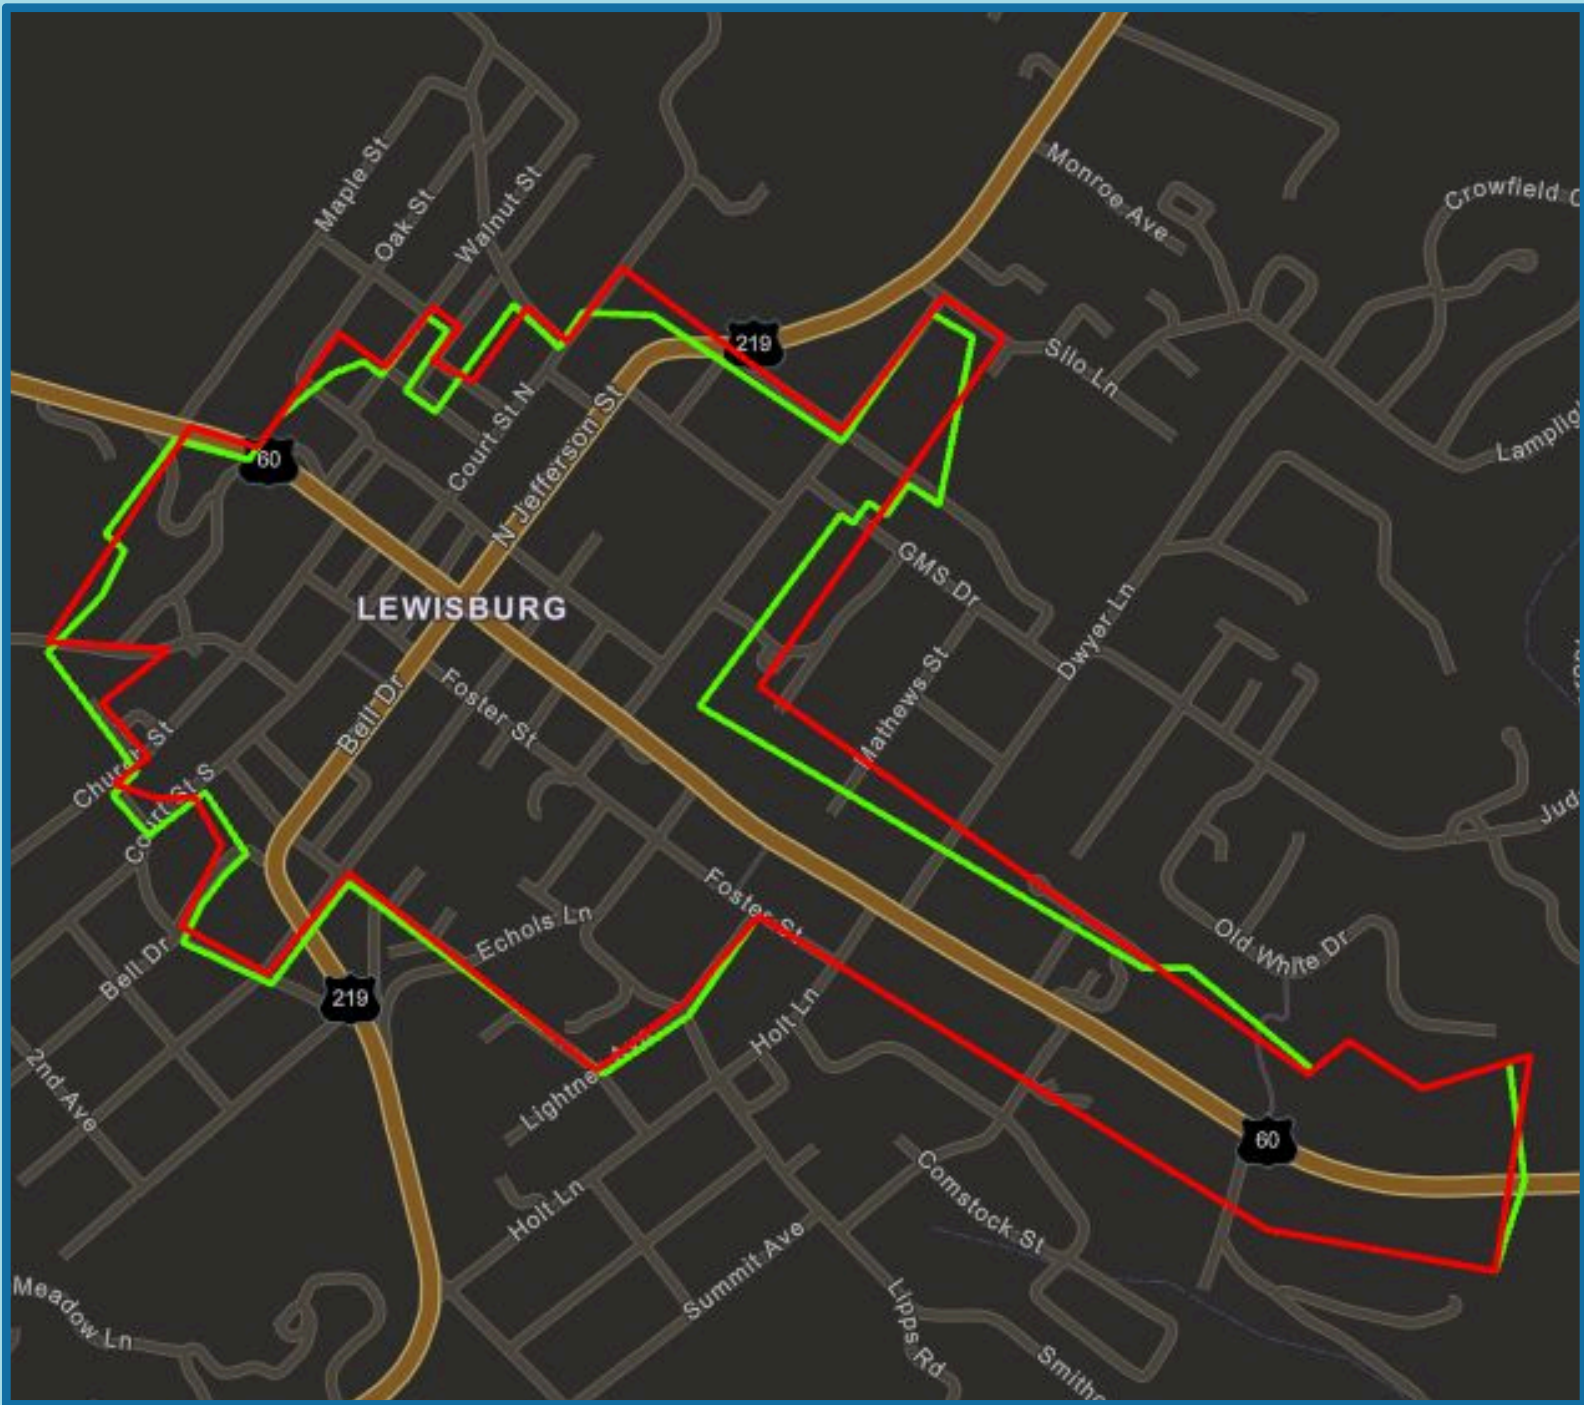

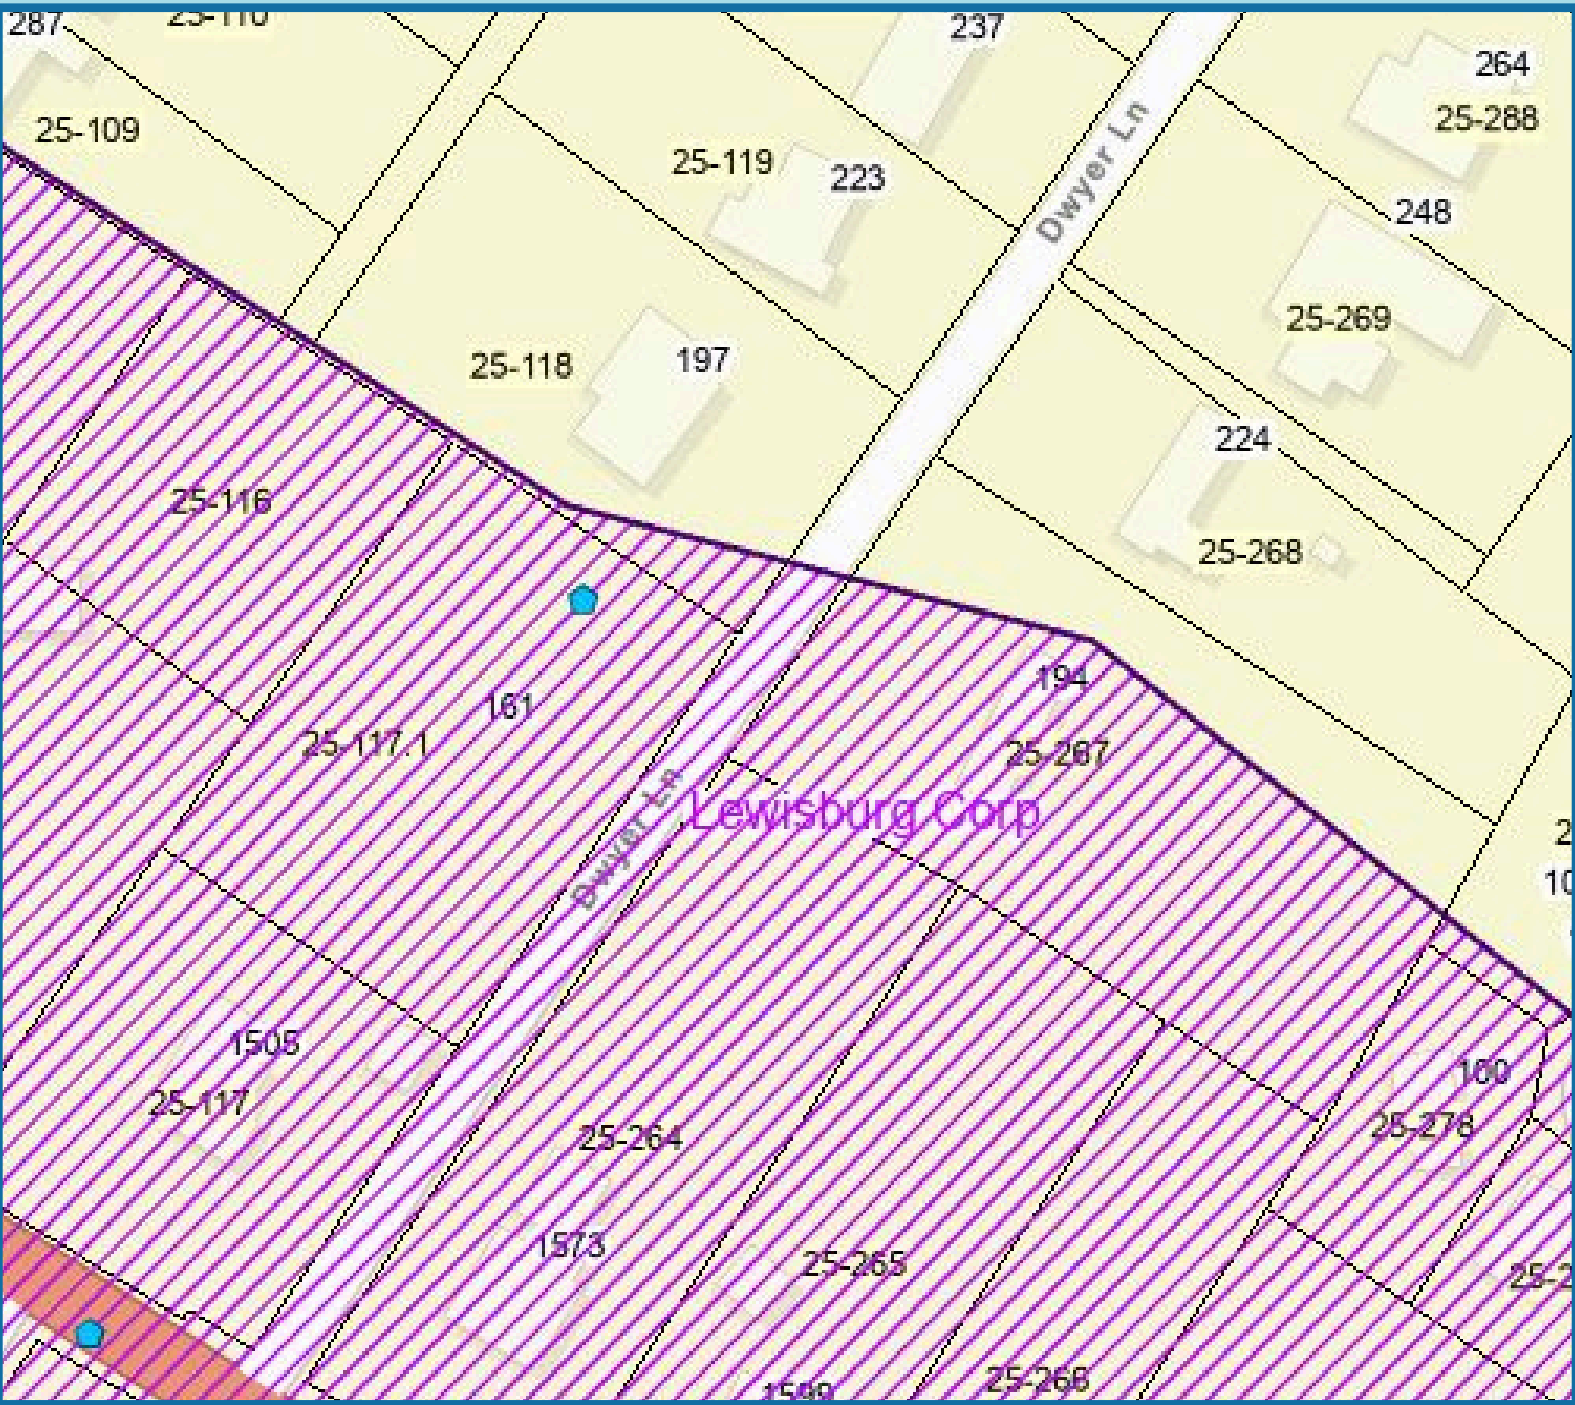

Evolving Standards

Boundary Issues

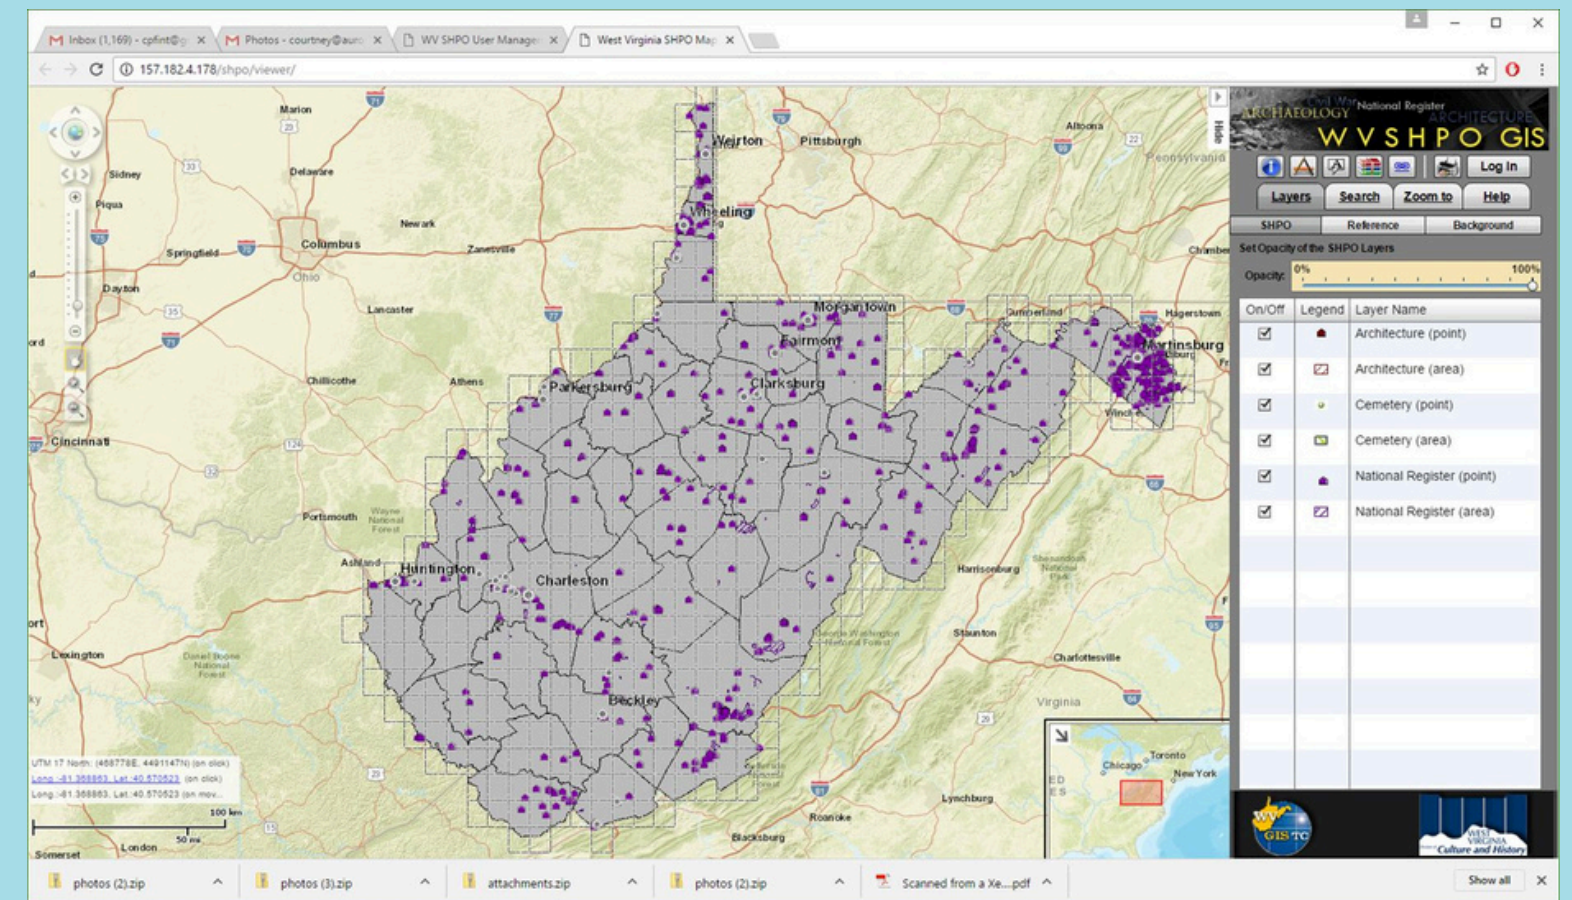

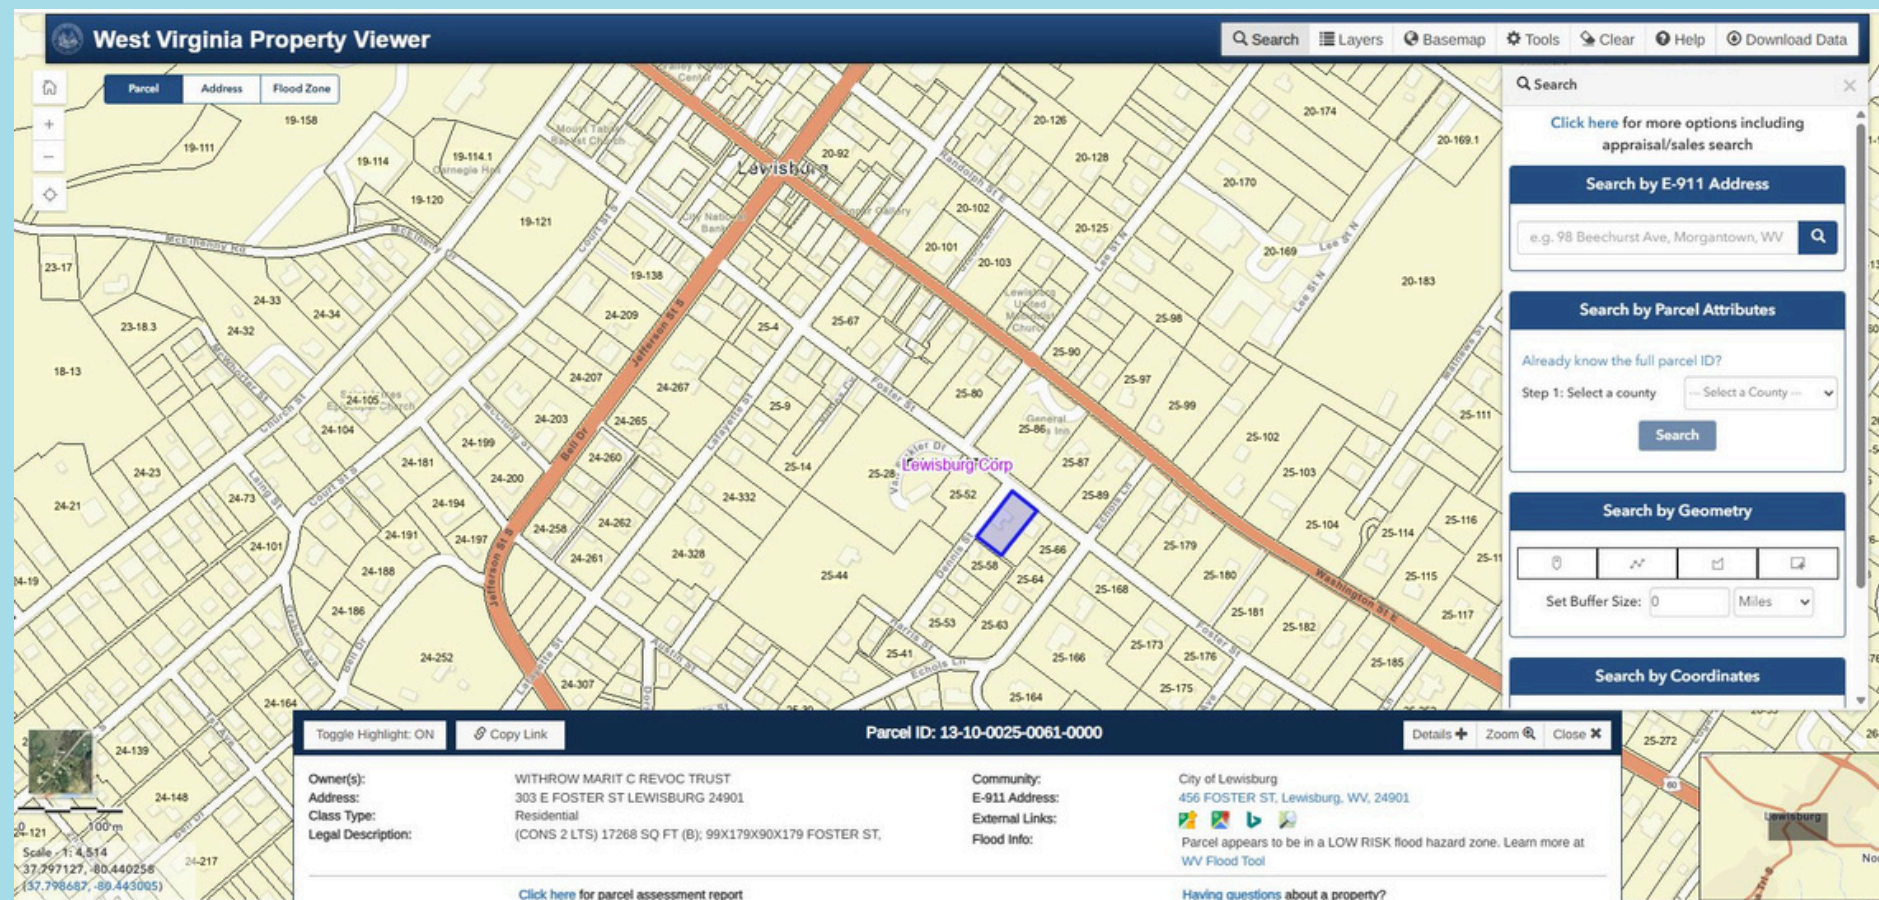

Boundaries:

The landmark is composed of the thirty-two and a half miles of main track from Mount Union to Alvan. The right-of-way extends 60' from the middle of the track, on either side, and this 120' zone constitutes the landmark along the railroad's length, except at Rockhill Furnace. At Rockhill Furnace, the landmark boundaries are expanded to include the yard and facilities.

Challenges in Resurvey and Nomination Amendments

Incorrect Coordinates / Locations | Renumbered Addresses | Demolitions | Mapping

Where to Start?

Pre-Field Mapping and Data

- Create a database (Excel, Access, GIS, etc.)
- Download every existing HPI from the WVSHPO map/files and add the info to the project database (Survey No., address, eligibility, date of construction)
- Match every existing survey number to the correct building on aerial imagery
- Add every other building within the boundary to the database
- Complete preliminary research on buildings (name, date of construction, function)
- Make a field survey checklist of properties to record

Street Address	C
521-523 E. Washington Street	P
	B
Town or Community	C

Field Survey

- Conduct the survey with the National Register nomination in mind.
- Be Safe.
- Document EVERY building within the survey area, old & new, pristine &... not.
- Photograph at least two views of every property, and take lots of streetscapes/environs photos.
- Keep a photo log.
- Talk with the locals. Lead with "We're studying the history of the neighborhood."

Current Architectural Survey Standards

- Don't Make it Up! Use the WVSHPO National Register and Architecture/History Survey Manual

<https://wvculture.org/agencies/state-historic-preservation-office-shpo/historic-and-archaeological-survey/>

WEST VIRGINIA HISTORIC PROPERTY FORM CONTINUATION SHEET

Name: Birkett/Cresap House
Survey #: RD 0062-0006
Survey/FR#: Beverly Architectural Survey Update

Description of Buildings or Site (Original and Present):
This property was called the "Aggie Cursip Home" in the original 1980 National Register nomination. This house is a wood frame two-story structure 5 bays wide and 1 bay deep with a 2-bay ell extending from the back. The house has a gabled asphalt shingle roof with arrowhead bargeboards. There are two interior brick chimneys. The house is covered in wood clapboard siding with rake and corner boards. Windows are 6-over-6 wood sashes and are placed regularly in each bay. The center window on the second floor has 2-over-2 narrow sidelights. The front entrance is flanked by 3-pane sidelights and has a flat transom with dentils and simple scroll ornaments. The front porch extends across the three center bays and has a hipped roof with a deep entablature supported by Doric columns and simplified wooden scroll brackets. There is also a gabled portico entrance on the south side and a small shed roof entrance porch on the north side, both supported by with Doric columns. Porches and bargeboard are alterations circa 1900. The side porch no longer has a spindled balustrade as noted in the 1999 survey. An additional small porch is located on the south side of the house, west of the gabled entrance. This porch was formerly enclosed, but was opened by the current owners ca. 2000.

Statement of Significance:
The original house on this lot was the two-story log home of Daniel Capito of Pendleton County. He bought the lot from Edward Hart on August 17, 1807. John Birkett bought the property in 1853. He and his family moved to Ohio during the Civil War and the log home was destroyed during the War. Following the War, the Birketts returned to Beverly and John Birkett constructed the existing home. The Birketts moved back to Ohio in 1869 and then on to Kansas by 1871. Charles J.P. Cresap and his wife, Agnes, moved into the house in 1870. Mr. "Pin" Cresap was born in Preston County. He had established a law practice in Beverly by 1863. Pin often served as a Special Commissioner and is often mentioned in court records. He also served as a member of the House of Delegates from Randolph County in 1881. The Cresaps had no children and Pin died in 1886 leaving his wife the house, etc. (Gioulis, 1999)

This property was listed in the National Register of Historic Places on January 11, 1980 as a contributing resource to the Beverly Historic District.

13TH STREET

11. Alley behind 1303 Eoff Street
OH-0001-1154
Storage Warehouse
c. 1920
Single-story painted brick storage warehouse with front-gabled parapet capped with terra cotta. Quarter-round windows infilled on the gable end. Two modified garage bays; one infilled with a single door.
One contributing building.

14TH STREET

12. 1 14th Street
OH-1149
Charles Sledd Building
c. 1965
Two or three-story modern concrete block storage/office building with minimal fenestration and two double aluminum entry doors facing 14th Street. Brick veneer at first level, vertical concrete fins at upper levels.
One contributing building, previously counted as non-contributing.
13. 9 14th Street
OH-1103
Alexander Durst Building
c. 1904
Five-story, four-bay brick Italianate building. Upper levels retain good integrity; infill and addition of new metal double doors and glass block windows at street level. An awning or canopy structure appears to have been removed from the facade.
One contributing building.
14. 11 14th Street
OH-1102
Hubbard/Benwood Iron Works/Wheeling Steel Building
c. 1890
Two-story, three-bay painted brick commercial building with two layers of corbelling beneath the parapet. Storefront modified with roll-up garage door at center, flanked by two single-leaf doors, all beneath transoms. Fluted pilasters divide storefront bays. Connected to 13 14th Street (OH-1101) to the east.
One contributing building.

How TAB Can Help

TAB is independent resource providing support and guidance to help communities understand:

- Acquiring, assessing, cleaning up and redeveloping brownfield properties;
- The health impacts of brownfield sites;
- How science and technology are used for site assessment, remediation, redevelopment and reuse; and
- How to comply with voluntary cleanup requirements.
